Michael has qualifications and experience in Environmentally Sustainable Design, Strategic Planning, Business Development, Performance Reporting, and Energy Efficiency in both planning and implementation.

His experience has been gained in the Electricity Industry in NSW and Victoria, the Water Industry with Gold Coast Water, and for the past 19 years, in the private sector with Partners Energy Management.

In addition to Michael's managerial role at Partners Energy, he specialises in all aspects of 'Section J' Energy Certifications. This section of the National Construction Code of Australia is a complex area of regulation where all new buildings are required to meet strict standards in relation to energy efficiency.

Michael works closely with architects, building designers, project managers, services consultants, D& C contractors and certifiers to verify compliance of new buildings and major renovations.
